ABOUT THE FILM

[Sexual Revolution: 50 Years Since Humanae Vitae](#) is an exciting and beautifully-made documentary that examines the parallel developments of the Pill and modern Natural Family Planning (NFP) by telling the little known story of the founding doctors, respectively, Dr. Gregory Pincus and Drs. John & Evelyn Billings. The centerpiece of the film is the dramatic life story of Alana Newman, a talented recording artist who goes from being an activist for feminism and sexual freedom to giving up her promising musical career for life, family, and love. Born through donor conception (via an anonymous sperm donor), Alana's youth is filled with natural curiosity about her biological father. As she gets older, however, this curiosity develops into a sense of abandonment and self-doubt. Still, a spark of that curiosity inspires her on to an arduous search for Truth, Beauty, and Goodness—and her father. Eventually, Alana discovers the treasures of Theology of the Body, *Humanae Vitae*, and all the riches of the Catholic Church, and comes to realize that she, in fact, may never have been fatherless.

[Sexual Revolution: 50 Years Since Humanae Vitae](#) has been endorsed by [The Pontifical Council for the Promotion of the New Evangelization](#).
